## The Blue Planet Life

Since 2009, Blue Planet Eco-Eyewear has been on an eco-friendly mission to help others along the way. We are family owned with a strong, passionate team who are happy to offer beautiful eyewear to individuals who are committed to making socially responsible purchases that look great and are good for the planet.

## Random Acts of Kindness Program

We began our Random Acts of Kindness Program to support and serve our local community. We found a huge need for our staff to immerse themselves in assisting with environmental clean ups, participating in vision clinics for US veterans and migrant farm workers, and working with animal rescue organizations. This hands-on approach has proven to be a wonderfully fulfilling program for our team to give back to those in need. Unfortunately, due to the COVID crisis, 2020 has been quite difficult to get hands on with organizations however we made it our goal to fundraise for numerous charitable organizations. We were proudly able to make sizeable donations to several non-profits throughout the year such as Wounded Warriors, CALM and the Organic Soup Kitchen of Santa Barbara.

# 1,500,000+ PAIRS DONATED

## Visualize Change Program

Give the gift of sight through our Visualize Change Program: we donate one pair of glasses for every frame purchased by our customers. Along with our giving partners SEE International and Direct Relief as well as numerous humanitarian organizations we have donated over one and a half million pairs of corrective eyewear that help provide visual support to children, men and women here in the USA and around the world. Help us continue to provide and protect sight to help change lives for even more people in 2021.

## Trees for the Future Program

We have partnered with Trees for the Future to plant one tree for every pair of Blue Planet Eco-Eyewear purchased by our customers. We are proud to support an organization that is positively impacting our beautiful planet with over 191 million trees planted since its founding 30 years ago. Planting various types of trees helps increase oxygen levels, sequester carbon, reduce deforestation and provide food to those in need.

# How to Order:

1

## **Choose a display package:**

Either use our money-saving EZ Order program that offers a curated assortment of our best-selling styles from each product category OR select the individual styles that you love from each product category.

2

## **Choose your styles:**

We have 9 packages that offer a beautiful display for your store, a wonderful array of eyewear and most importantly **maximized profits**.

3

## **We will happily pack and ship your order ASAP**

Shipments are sent from our warehouse in Carpinteria, CA

4

## **Thank you!**

We appreciate your business.

## **Ready to Order?**

We are here to help! You can email your order to us, place your order online or give us a call!

# Eco-Process Polarized Sunglasses

Ultra-light frames are constructed with recycled materials using our very own Eco-Process which reuses content that would otherwise end up in landfills or our oceans. Our 100% UVA/UVB premium polarized lenses protect your eyes from harmful UV rays and glare.

A woman with long, wavy red hair is sitting in a white chair. She is wearing brown-rimmed glasses and a white, long-sleeved blouse with a subtle pattern. She is looking directly at the camera with a neutral expression. The background is a plain, light-colored wall. A small green plant is visible on the left side of the frame.

# **Eco-Process + Eco-Sustainable Readers & Blue Light Lens**

Beautifully handcrafted eco-friendly and sustainable frames that will have people stopping in their tracks. Keep eye strain and fatigue at bay with our premium reading glasses and blue light filtering lenses.
