Vance Kitira

Clean burning wax candles add comforting illumination to any space, adding a sense of comfort and warmth. Vance Kitira candles offer all that and so much more!

- Our Candles are odorless (unless noted) and smokeless during burning.
- Unscented candles are a necessary alternative to scented for consumers who want hypoallergenic, candles without strong scents for meal time,] restaurants, ambiance, and more.
- For retail businesses, unscented candles are incremental business. They compliment scented candle lines.
- Our candles burn straight down, with no mess.
- Retailers will carry year-round colors, as well as those in & out of season
- Temperature limitations – transport/store – 110° to max of 120°
- US Patent and Trademark Office Registration Number 2,390,576

Friends,
I'm thrilled to announce we've entered into a distribution partnership with Sullivans, a leader in the gift and home industry for over for over 50 years.

We've been searching for the right partner to take us into the next 30 years of Vance Kitira excellence, and Sullivans is the ideal partner. I will still be designing the candles you love with the added benefit of Sullivans' Flat Rate Freight, special dating, special promotions and more opportunities for product development.

Our signature Timber® candles will continue to be best sellers across the industry. They display a warm glow and boast phenomenally long burn times. Our fully-refined, food-grade paraffin wax has been hydro treated to remove impurities and color. The result is a wax that is water clear, odorless and smokeless during burning. We use only 100% cotton wicks from the U.S. and fine dyes from Germany.

Our Timber Candles have been tested by the independent SGS Laboratory in France. We are pleased to announce that results have confirmed our candles are indeed clean-burning and environmentally friendly.

Beautiful nature-inspired and hand-poured, distress-textured candles have a long burn time. Mix and match colors for your own unique vignette.

– Hummingbird House Sedona

Many of our retailers utilize our candles to cross merchandise their gift and home décor stores, simply by including them in their boutique or accessory displays. However, now you can also accessorize them with Sullivans' stunning lanterns, candleholders, and home décor. Our deep rich tones and distinctive colors allow for an unending mix & match throughout the seasons.

We look forward to this new chapter at Vance Kitira and to continue serving our customers with candles to spread year-round warmth and joy.

Yours in Health,

Vance Kitira

The burning pattern of an average **Timber® Candle (CT246, 3.25x6")**. The burn time of a CT246 is listed as 100 hours. Even burned down as far as the last photo, there is still another 24 hours of burn time left in the candle.

Timber® Candles

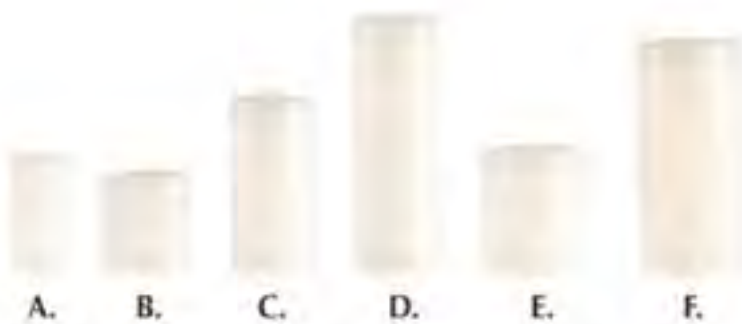

Our Timber® Candles have been tested by SGS Laboratory in France. We are pleased to announce that results have confirmed our candles are indeed clean-burning and environmentally friendly.

I love how they burn the light of the flames, the glow of the wax,
 I love the beauty they reflect even when not lit, and love the beauty as they burn.
 I love the warmth of memories and beauty of aesthetics they create.
 I love that I have not found any other line of candles that compares.
 - Waba Sabi Taos
